“Califlora”

# GLADIOLUS

These are the **Finest Quality High Crown** bulbs, grown one or two years from bulblets in our own “Califlora” fields. They should not be confused with the large flat, worn-out bulbs the commercial grower discards at very cheap prices. The most modern cultural practices are used, both in growing and storing, and all the bulbs are guaranteed disease free. The complete line of varieties we offer represents the results of trials made with hundreds of varieties, both foreign and domestic. We are sure you will find no finer bulbs anywhere.
